Facts About Strathmore

By T. M. Weare, Secretary-Treasurer
And Town Solicitor

NO. 6 OLD TIMERS

Ex-Councillor Thos. Wright has been good enough to supply me with a list of oldtimers covering the entire period of a quarter of a century, in other words those who lived here in 1911 and are still residents. The list I will be able to accept and complete.

Mr. Wright settled here in 1909, and about the same time there settled Joseph Van Tighem and Roland Hill, all from Okotoks.

As long ago as 1891 Syd Hyde and Jack Dowdle were working for Hayden and Skene, contractors, who camped on the present townsite.

Mention should be made of Frank Skene of Cheadle, an old timer, who did much for the town and died in the early days.

As far as Mr. Wright can make out Herb Harner is the oldest actual resident still living town. Mr. and Mrs. Albert Black came about the same time, while Mrs. Charles Calgary, who is the first woman resident still living here.

Here follows the list of oldtimers—

DEATH OF WM. NOCK

A tragic accident occurred in Calgary, July 5th when the tongue of a trailer fastened to a large truck became loose, swung round and struck Mr. Nock piercing the abdomen. He was removed to the hospital suffering intense pain, death resulting Thursday night.

Mr. Nock lived in the Strathmore district from 1912-1916, during which time he was employed by Wm. Hadden. Later he moved to Medicine Hat, from there he moved to Calgary in 1926.

He is survived by his widow, two daughters Mrs. Williams of Plucker Creek and Mrs. Thornton of Jarvis and one son, Harold Calgary, who at one time served in the local Royal Bank.

The funeral was held Monday from Foster & Foster Funeral Home, the Rev. D. F. Kemp officiating.

Strathmore friends extend sympathy to the bereaved family.

MARKETING CANADA'S WHEAT

Many serious students of Canadian affairs consider that the maintenance of a reasonable standard of living for farmers and, indeed, for all in West Canada, will require the production of an annual average of about 400 million bushels of wheat, which in turn will necessitate an annual export sale of about 250 millions.

Since 1929, the export sales of Canadian wheat have gradually declined from an average of over 250 million bushels a year to an average of only 165 million bushels. These decreased sales represent lost markets.

To increase export sales from 150 million bushels annually, to at least 250 million, would appear to be a vital necessity for the welfare of Western Canada. Here to-day these lost markets are one of the most serious problems which Western people are confronted—the other being the low purchasing power of wheat.

A serious consideration of methods that might be adopted in order to increase the sales of Canadian wheat, must involve an accurate knowledge of which markets have been lost, and of the causes that have brought about the decline in sales.

Prior to 1929, Canadian wheat and flour was sold each year on the markets in over seventy countries in the world, and it is probably correct to state that over 300 million people, outside of Canada, in those days ate bread that was improved because it contained at least some percentage of Canadian wheat.

Today many of those countries use no Canadian wheat at all, and all of them use less Canadian wheat than

LETTER OF APPRECIATION

ROYAL CANADIAN MOUNTED POLICE
K. Division, Edmonton, Alta, 9th July.

Mr. T. Glendinning,
Canadian Pacific Railway Co.,
Strathmore, Alberta.

Dear Mr. Glendinning—
Dated and Wesley Evers, and John Evers, Breaking, entering and Theft.

Having read the report submitted by Mr. Carter in connection with the case of the Montreal Police in the attention of the Commissioner at Ottawa, Maj. Gen. Sir James H. MacBrien, I desire to express to you and your son W. Glendinning, our sincere thanks for the assistance rendered to Constable Carter in the apprehension of these criminals.

Your very truly,
H. M. NEWSON,
A.C.M.P., Comdg. "K" Div.
The above letter speaks for itself in that the Montreal Police are indebted to those who so effectively assisted them and do not reserve all for themselves as some have intimated.

They did, some using substantially less.

When as a whole the statistics reveal that between 1922 and 1929 the world, exclusive of China and Russia, used 10.6 per cent, on the average, of Canadian wheat in its mix of flour and bread.

During the period from 1929 to 1934, the average used was only 7.4 per cent.

Examined from another angle, the situation can be expressed as follows: Between 1929 and 1935, the world's international trade in wheat has suffered a decline of 31 per cent, but Canada's world trade in wheat has suffered a decline of no less than 46 per cent.

In future articles, an attempt will be made to set out the details of the most important foreign markets in which Canada, prior to 1929, sold wheat and flour; to show the present sales to these markets, and so to appraise the extent of the decline that has occurred in the sales of Canadian wheat to each country separately. Then, perhaps, an attempt can be made to discuss something of the factors that have brought about the decline in sales both of world export wheat in general, and of Canadian wheat in particular, in these various countries.

A close appreciation of just what has occurred, in as much detail as can be obtained, should afford some foundation for suggestions to be made, it is hoped, to win back some, if not all, of the markets for Canadian wheat and flour that have been lost during the past few years.

He spent several years in Dawson City, where he amassed quite a fortune, and could tell many an interesting anecdote of life and conditions in this far away spot.

They came to Strathmore in 1919 and since that time he has served on the Town Council, taking an active interest in all affairs of the Town. For the last few years he has been farming just out of Strathmore.

He has been in failing health for the past year, and Monday last was removed to the hospital in Calgary, but medical aid proved unavailing to restore his strength.

Mr. Bailey leaves to mourn his loss his wife and one brother, in the State of Washington, besides nieces and nephews in the east.

The funeral was held Monday at 2 p.m. at the funeral parlor, with Rev. Gilbert officiating. Miss Beattie Oldham sang "Face to Face," with Jean Garrett accompanying.

"An exclusive vegetable diet will make you beautiful," asserts a woman columnist. Lady did you ever take a good look at a hippopotamus?

The day is a soft, gray monotone—the rhythm of the rain deceives it.

You can pray in a crowd
Or pray alone;
Gray rocks can make a spire
Or a tombstone.
A tree can make a cross
Or ceiling rafters;
A word can bring us tears
Or welcome laughter.
And so in Life you make
Or mar the whole,
By using leaves or wings
To speed your soul.

The unobtrusive friendly things
The 'won't you let me help you' things

That make our pathway light.
And it's just the jolly joking things
The 'never mind the trouble' things.
The 'laugh with me it's funny' things
That make the world seem bright.
For all the countless famous things
The wondrous record-breaking things
Those 'never can be equalled' things
That all the papers cite.

The 'just because I like you' things
Those 'oh, it's simply nothing' things
That make life worth the fight."

THE PROVINCE OF
VANCOUVER ISLAND

In these afflicted days when there is so much talk of the overgovernment of Canadians and the extravagant costs of the same, one might expect it to be unpopular to suggest an extension of government. But the ambitious and proud people of Vancouver Island apparently have not fallen in line with this modern outlook, are demanding that their island become the tenth province of Canada and separate from British Columbia. Familiar people as a rule are liberty-loving and proud. They hate to have their necks bowed beneath the yoke or to wear another's collar, so Vancouver Island folk, irritated at the overbearing of mainland British Columbia, are on the march to freedom.

Vancouver Island is one of Canada's most delightful spots. If Prince Edward Island is the Garden of the Gulf of St. Lawrence, Vancouver Island is the paradise of the Pacific. It stretches for 100 miles along the western coast of the continent, its southernmost extremity reaching south of the United States boundary, possessing an almost ideal climate.

Tennessee stopped their work recently to pick \$5 bills from the corn stalks and walnut trees along the French Broad River. The phenomenon has been attributed to flood waters. But whatever is the cause, just wait until Washington hears about it, and it will be put under crop control.

AGES OF FAMOUS MEN

Some men are old at forty. Some are young intellectually at eighty. William Pitt was the prime minister of England at 24. Gladstone held the same office at 84, and with powerful success. Byron died when he was 36. At 81 Voltaire was the leading figure among French men of letters. Napoleon was at his best before he reached the age of 30. Frederick the Great was 60 when he made Prussia one of the powerful states of Europe, and it was at the age of 56 that Bismarck founded the German Empire. Washington was 56 when he began his term of eight years as president of the United States. Hamilton died at the age of 47. Leonardo da Vinci was past 50 when he painted the Mona Lisa. It compulsory retirement at 50 had been established in the past the world would never have heard of Lincoln, Lee or Darwin. —Ex.

GIVES YOU ALL THESE
Safety Tested
EXTRA VALUES

Safety is built into every part of a Firestone tire—both inside and out. Every fibre of every cord in Firestone tires is safely locked in pure rubber—Gum-Dipped to insulate it against internal friction and heat. Plies are anchored to the beads. Two extra cord plies under the tread hold the body and tread into an inseparable unit. And the Firestone tread is now safer than ever with an additional rider strip.

With all these extra values, Firestone tires do not cost one cent more than ordinary tires. Specify them on your new car. When replacing worn tires, see your nearest Firestone Dealer.

IN MEMORIAM

—101—
 In loving memory of my dear
 Mother and Father, Mr. and Mrs. Hor-
 ton, who died July 14th, 1935, and
 July 14th, 1924.
 My memory often wanders,
 As twilight shadows fall,
 Back to the days of happiness
 Days beyond recall.
 And a vision comes before me,
 So calm, so clear, so sweet,
 Of them whose life is silent,
 Whose eyes are closed in sleep.
 Fondly remembered by her daugh-
 ter Ella Bushman and family.

—101—
 Sir Herbert Marler has been ap-
 pointed Canadian Minister to the United
 States succeeding W. A. Fier-

THE STANDARD

CARSELAND

On Tuesday evening Mr. and Mrs.
 John Jamieson entertained the mem-
 bers of the Ladies Aid and their hus-
 bands to a strawberry Festival in the
 beautiful grounds of their home by
 the river. It was a very enjoyable
 event.

Visiting with the host and hostess
 just now is their daughter Helen
 (Mrs. Friend of Winnipeg) with her
 little girl.

There will be no United Church
 Service in Carceland on the 19th or
 20th. Next service will be 1st Sunday
 in August.

—101—
 Do you know, said the Knightman,
 that my family had the right to bear
 arms for over two hundred years.
 Mon, rejoined the Scot, my family
 has had the right to bare knees for
 over two thousand years.

—101—
 Said—Grandma's sticking to her
 knitting, Papa.

Papa—Well, why tell me about it?
 There's nothing unusual about grand-
 ma sticking to her knitting, is there?
 Papa—Yes, Willie put glue on her
 ears.

CARD OF THANKS

—101—
 Mrs. Bailey wishes to thank the
 friends and neighbors for their kind
 sympathy and floral tributes during
 her late bereavement.

GOLF NOTES

—101—
 The Legal Golf Club, Calgary, have
 invited the men of the Strathmore
 Golf Club, to be in Calgary, ready to
 play by 1 p.m. Sunday, July 19th.
 Please amount in as large a number
 as possible.

CEREAL NOTES

—101—
 Another week without rain has
 caused serious damage to the crops
 and at this writing the prospect for

GOOD YEAR "PATHFINDER"
 has the famous "All-Weather" Tread
—FINEST OF 1936!

Look where you will, you'll find no tire value to equal it
 —for the simple reason that the
 Pathfinder is actually a
 "first-line" quality at a big
 discount in price.

even feed is very serious. It is most
 wonderful what this district will pro-
 duce in a short time when there is a
 plentiful supply of moisture in the
 ground and with heavy rains any
 time this month, there will be a
 large yield of feed and potatoes.
